

Weight Management in the Workplace

We have developed a range of workshops to suit individual and organisational needs. They vary from two hours to half a day, to our more extensive one day program. Please see below for details.

All our workshops are tailored to the organisation, the setting, time constraints and the needs of the workplace. Conference presentations can also be arranged.

Bring your business back to life

Many workers are facing critical health issues due to long-term habits and lifestyle choices – and the effect on workplaces is dramatic. There's no denying it; employee wellbeing has a direct impact on the bottom line. Sick people mean a sick business.

Workplace stress and illness lead to low staff morale, plummeting productivity, soaring absenteeism and presenteeism, a boom in compensation claims and workers who seek escape in lifestyle behaviours like alcohol abuse, drugs and over-eating.

Many business leaders focus on profits, and not the wellbeing of their people. The savvy ones, who recognise the importance of employee wellness, reap the rewards of an energised, committed and more productive team.

Health & Wellbeing Training Consultants have seen the results first-hand. Through our health and wellbeing programs, we've helped hundreds of workers to manage their stress and be mindful, quit smoking, lose weight and improve their work-life balance.

A resilient business is a thriving business!

Weight Management Workshop Outline

Depending on time, our weight management workshops provide participants with information on:

- understanding the sources of weight gain
- decision making and effective planning, including practical strategies
- post weight loss, how to maintain a healthy lifestyle change, not 'the diet'
- support services available for staff to access

Our one day workshop provides greater detail than our shorter sessions, as well as many opportunities for your staff to reflect and review.

Non-threatening group activities are also incorporated throughout the day.

One Day Weight Management Workshop (9am – 4pm) ***Learning to manage your weight***

If you would like your staff to increase their confidence, knowledge and skills, and overall would like to make positive lifestyle changes, then this program is ideal for your workplace.

The one day workshop provides information on:

- identifying habits and understanding the sources of weight gain
- discovering a healthier approach to food and nutrition
- discovering a healthier approach to exercise and fitness
- discovering a healthier approach to your appearance
- decision making and effective planning, including addressing your challenges and concerns (social eating, emotional eating and more)
- post weight loss, how to maintain a healthy lifestyle change, not 'the diet'
- a range of useful behaviour change strategies that will help guide staff into action
- support services available for staff to access

Little steps, lifelong strides

In our workshops and programs, we share insights that build robust mental health for a thriving workplace, with practical and achievable steps. We help to bring businesses back to life through a culture of positive lifestyle change. The results for individuals and businesses are astounding! Increased staff morale, fulfillment and productivity and reduced absenteeism, presenteeism, and compensation claims.
